M. E. Arithmetic Exemination.

1. Add together:— $\frac{2}{3}, \frac{2}{3}, \frac{2}{3}, \frac{2}{3}, \frac{2}{3}$
2. (1) $\frac{3}{2} - \frac{2}{3} + 5\frac{7}{11}$; (2) $\frac{7}{11}$ of $(\frac{2}{3} + 3\frac{1}{11})$.
3. $1\frac{1}{11} - \frac{1-7}{2} + \frac{12}{3} - \frac{5}{4}$ of $(\frac{1}{2} - \frac{1-1}{4-5})$
4. A bankrupt's debts are Rs. 1421-5-4, and his

assets are Rs. 533-0-0, how much does he pay in the rupee?

5. If 21 men in 25 days dig a trench 363 yds long 5 ft. wide, 26 in deep how long a trench 2 yds 1 ft wide, 22 in. deep could 8 men dig in 49 days?
6. Find the H.C.F. and L.C.M. of 16. 32. 48.
7. Convert the following into decimals:- $625 \frac{71}{355}$,
8. Divide, giving the quotient of three places of decimals, 1.48 by .0031.
9. Find the square root of the following: 103,797, 374,976.
- 10 A general wishing to arrange his men, who were 1,769. in number into a solid square, found that there were 5 men over: how many men were there in the front?
11. Find the L.C.M. of (1) 720,000 ; 91,330 and 15,409. (2) 5916 ; 94308 and 182 787.
12. Find the value (by practice) of 357 pieces of long cloth at Rs. 7-13-10 per piece.
13. What is the breadth of a room whose floor measures 36 sq. yd. 2 sq. ft. 120 sq in which is 18 ft 6 in long?
14. Find how many persons can stand in a room measuring 15 ft. by 9 ft. supposing each person to require the space of 27 in by 18 in.
15. Find Simple Interest on Rs. 790-15-4 for 4 years 73 days at $2\frac{1}{7}\%$.

The Answers of the preceeding sums:—

1. $11 \frac{2513}{3560}$ 2. (1) $5 \frac{13}{44}$ (2) $\frac{70}{99}$ 3. $1 : 4 :: 5 : 20$:
 5. $228 \frac{4}{5}$ yds. 6. $32,95$: 7. $625 \frac{2}{3}$: 8. $47 \frac{1}{2}$; 419 :
 9. $322,176$: 10. 42 : 11. (1) The numbers are
 prime to each other ; (2) 87 : 12. Rs. $2807-10-6$:
 13. 17 ft. 8 in ; 14. 40 : 15. Rs. $71-2-11.76$.

(The above answers are given for anybody's help).

ORDER. 5

The following orders are issued in regard to the grant of Rations to the sons of chiefs or any other pupils drawing Government Rations for the purpose of enabling them to attend the Mission School.

1 All payments for Rations will be made on the 1st of each month and no payment will be made

without a certificate from the Head Master that the pupil has attended school regularly and worked diligently on all days on which the school was open.

2. The only absences permissible are those on account of sickness or when leave is granted by the Head Master.

3. No pupil drawing Rations is to leave Aijal without the permission in writing of the Superintendent.

4. The father or parents of any pupil leaving Aijal without permission and going home may be called on refund the ration allowance of the month in which the absence occurred. If any pupil leaves the school altogether without permission the father or guardian will be liable to refund the whole amount that may have been disbursed by Government on account of ration Compensation.

5. The father or guardian of any pupil dismissed for misconduct will be liable for a similar penalty.

THU—NAWI

THE TOMB OF GENERAL GRANT—the greatest
 soldier of America and twice President—stands in
 Riverside Park, New York. It is massive and majes-
 tic. The mausoleum is modelled on the tomb of

Napoleon at Paris, and contains also the body of the General's wife.

THE 'GRAND CANYON OF THE COLORADO' is in the Territory of Arizona, U.S.A., and lies along the channel of the Colorado River. It is entirely without vegetation, but has magnificent colour, chiefly red, brown, yellow, grey and white. The depth in places is 5,000 feet.

VICTORIA REGIA is the name of the largest known species of the water-lily, belongs to the lotos family—is over two feet in diameter.

THE CATHEDRAL AT COLOGNE, on the Rhine Germany, is the loftiest (438 feet) in the world. It was about 400 years in building.

THE WHITE HOUSE, at Washington, is the official residence and office of the President of the United States of America. The original edifice was burned by the British Fleet during the war of 1812.

THE LIBERTY STATUE is a colossal bronze figure, 118 feet high, standing on a pedestal 84 feet high. It is the work of the French sculptor, Bartholdi, and is the gift of France to America. The right hand bears an electric torch.

NEW ZEALAND SHEEP-DROVE shows the enormous scale on which sheep-farming is carried on in that country, as well as in Australia.

THE KANGAROO, a powerful animal capable of wonderful leaping owing to its long hind legs.

Native of Australia, and feeds on leaves, herbs and grasses. Carries its young in a pouch.

COMETS are fiery, glowing celestial bodies flying through space, having bright luminous trails, and are very imposing sights in the night skies.

YOSEMITE FALLS, in Yosemite Valley, California, are 1,500 feet high, broken by rocks about the centre of the drop.

THE FALLS OF NIAGARA lie between the United States and Canada, at the outlet of Lake Erie. They are 160 feet high and very Picturesque.

THE WASHINGTON MONUMENT, built in the City of Washington, with blocks of stone contributed by every State in the Union, is 555 feet high.

THE MAORI GIRL represents one of the native young women of New Zealand. They are often very handsome; are noted for their abundant blue-black hair, and are gentle in disposition.

THE MAORI WARRIORS are distinguished for the tatooing and scarifying of their skin and their peculiar war-weapon. They are brave, even to rashness.

WANGANUI RIVER, known as "The Rhine of New Zealand", the banks are very lofty and clothed with tropical foliage down to the water's edge.

THE KAURI TREE is a giant tree of New Zealand, sometimes reaching to 400 feet in height and rivalling the "big trees" California.

AMERICAN POLITICAL CAMPAIGNS are accompanied by a great amount of noise and enthusiasm, and often by considerable picturesqueness. During a "canvass" for the Presidency it is safe to say that millions of dollars are spent for torch-light parades, illuminated transparencies, fireworks banners, and bands of music.

THE NEW CUSTOM HOUSE, New York, an imposing edifice, is only just completed, and stands at the foot of Broadway, fronting on a small historic plaza called Bowling Green.

THE NEW "TIMES" BUILDING, New York, is one of the most recently built tall buildings in New York, and is about as ugly as the ugliest. It stands at Broadway and 42nd Street.

ST. GOTTHARD TUNNEL, through the Alps; from Goschenen, Switzerland, to Airolo, Italy; 9 miles long.

THE MATTERHORN, the most abrupt and rugged peak in the Alps, 14,630 feet high.

THE CRYSTAL PALACE, Sydenham, a vast building of iron and glass, designed by Sir Joseph Paxton for the first World's Fair, 1851, afterwards re-erected at Sydenham, and devoted to amusement and recreation.

Snowdon Summit, highest mountain in Wales

3,580 feet ; a railway runs to the top

ST. ALBANS ABBEY, St. Albans near London , longest nave in England ; built 1073 by Abbot Paul de Czen, on the site of the martyrdom of St. Alban—first English Christian Martyr.

EDDYSTONE LIGHTHOUSE, off coast of Cornwall ; built on an exposed rock , has been destroyed twice in storms. Present structure 130 feet high.

BROOKLYN BRIDGE at New York , steel suspension , 1 mile 38 yards long , centre span 1,640 feet long ; 138 feet above high water

"**OLD FAITHFUL**," one of the many hotwater geysers in Yellowstone Park, Wyoming, United States So named because it erupts, surely, once every hour. Height of jet 150 feet

The Bridge Across The Firth of Forth, Scotland is 6,535 feet long , centre span 1594 feet long , height above high water 134 feet , Cantilever principle ; a triumph of engineering

Shanklin chine ; is one of the most picturesque of the ravines, called "CHINES" in the Isle of Wight.

Southend pier ; longest pier in the world , at Southend, mouth of the river Thames , an electric railway runs its entire length, the pavilion seats 1,200 People

Germania Monument, on the lofty banks of the

Rhine, build to commemorate the establishment of the German Empire.

DAM—TEH U.

He thu hi leh lin' ula, a ngai thlak a nuam hle mai.

SAP RAM—A ZIN THU.

Thian te u,

Mi thenkhat te chu Kulkhuta (Calcutta) kal te an tam tawh a, chung te chuan an zuk zin-na chanchin te chu an hril tawh thin che u a; chuvangin Kulkhut chanchin chu hril lo vin chuta tang a kan chhuah a, Sap ram thleng a kan kal na te leh, a hmuna kan thil tih te, hril ka duh ve hle che u a.

(2) *Translate into Lushai:* (1) God appeared to Solomon, king of Israel, in a dream by night, and said, "Ask what I shall give thee,"

(2) And Solomon said, "Thou hast made me king instead of my father David, and I am but a child. I know not how to conduct myself before Thy chosen people. Give me an understanding heart, that I may distinguish between good and bad, and judge Thy people righteously."

(3) One day there came to Solomon two women, who lived in the same house. Each of them was the mother of a baby-boy; and the one infant was only three days older than the other. But the one mother had lain on her child by mistake in the night, and killed it.

When she awoke, and found that it was dead, she took it, and laid it beside the other woman while she slept, and carried off her living child. The other soon found out the trick that had been played upon her. So a dispute arose between the two women. Each of them claimed the living child; and they went together to Solomon to settle the matter.
